MESSAGE

Of President Wilson to Congress Read Before the Cabinet Today

TOUCHES UPON RAISING REVENUE

For National Defense But In Very Broad Terms

CUT IN APPROPRIATIONS

For Public Buildings and Rivers and Harbors Improvements Will Be Recommended—Some of Cabinet Wanted Entire Message Devoted to National Defense.

(ASSOCIATED PRESS TELEGRAM)

Washington, Nov. 23.—President Wilson laid before the cabinet today a practically complete draft of the address he will read to congress December 7. The president has decided to touch on the question of raising revenues for national defense but probably only in very broad terms. Some of the cabinet wanted him to devote the entire address to the national defense, but as read at today's cabinet meeting it deals with other legislation. The president favors cutting appropriations as much as possible for public buildings, and rivers and harbors improvements.

MANN WILL CONFER WITH PRESIDENT AS WELL AS GALLIGHIER.

(ASSOCIATED PRESS TELEGRAM)

Washington, Nov. 23.—Chairman Chamberlain, of the senate military committee announced today that he planned to introduce a bill for national military service, modeled after the Swiss system. He does not expect it will be passed, but plans to bring the subject up for serious consideration in congress and also to begin a campaign for military education.

Senator Chamberlain and Chairman Hay, of the house military committee, officers of the general staff and Secretary Garrison, will confer this week on the army appropriation program. They expect to have it ready for introduction during the first week of the session.

Republican Leader Mann, of the house today accepted President Wilson's invitation to confer on national defense legislation.

Senator Gallighier, the senate leader, already has accepted.

SCHOOL CHILDREN CATCH GLIMPSE OF THE HISTORIC BELL.

(ASSOCIATED PRESS TELEGRAM)

Cleveland, Nov. 23.—Nearly two hours late, the special train carrying the Liberty bell reached Cleveland at 9 o'clock this morning, and found a large crowd of school children waiting to catch a glimpse of the old historic relic.

The car on which the bell is conveyed was switched to tracks at the corner of the court house lands in the center of the city, and in the 6th, 7th and 8th grades of all city and suburban schools, were dismissed from their forenoon classes to see it.

The pupils were marched past the car three abreast, under direction of a large corps of policemen. The bell will move to the southeastern part of the city later in the day where several additional stops of ten minutes will be made and then it will proceed to Pittsburgh.

Savage Artillery Duel Is Opening of Battle Between the French and Bulgarians

(ASSOCIATED PRESS TELEGRAM)

French Headquarters, Kavadar, Serbia, Nov. 21.—(By Courier to Saloniki, Greece, Nov. 22.—Via Paris, Nov. 23.—A sanguinary battle between the French and Bulgarians in the Gorge of the Rajevo river, a tributary of the Cerna, southeastern Serbia, has resulted thus far in the retirement of the French from a point north of Dranovo to the right bank of the Cerna. The French however, still are holding the Rajevo gorge and the important bridgehead at Bojharsti, controlling the heights opposite Gradiste.

The Associated Press correspondent today visited the French post west of the Rajevo bridgehead which is detailed to guard the strong natural position in the granite walled gorge. This gorge, however, is exposed to artillery fire from the surrounding heights. Through it runs a narrow rapid stream held by infantry.

Half an hour later the correspondent with a party of French officers watched the battle from the neighboring hills. Every detail was visible except during occasional periods

City Seeks Data on Which to Base New Gas Rate Agreement; Conference Held Last Night

City Council Monday night at an informal conference with gas company representatives asked the company for data on which the city might base its new rate ordinance which will take the place of the current ordinance which expires next March. The new rate agreement will cover a period of seven years which is the life of the franchise ordinance passed in 1898.

Judging from the peaceful atmosphere which prevailed at last night's meeting, the new rate agreement will be made without resorting to litigation which followed the last attempt of the city and gas company to agree upon a price to be charged local consumers and which is still unsettled.

Judging also from the expression of several citizens, such action by council and gas company officials will meet with the approval of Newark people.

Solicitor Norpell, speaking for council, requested the gas company to give to council certain data on which the new rate agreement might be based. This data is to consist of figures showing the cost of production and transportation of gas to the Newark company's distribution system in this city. He asked how far the company would go in furnishing the data.

Attorney J. R. Fitzgibbon representing the gas company told Mr. Norpell and members of the council that the company was willing to furnish whatever figures were needed and asked just what data was desired. He said the company would court any investigation the city might make and suggested that this investigation be conducted by the city in addition to whatever information was furnished by the city. He said that the information brought in

the recent law suits showed the cost of production and transportation of gas.

He called attention to the fact that statute gave council authority to regulate but not to arbitrarily fix the price of gas. He said the company asked only the same consideration which it received in other Ohio cities where gas was being furnished.

Speaking as a citizen, Mr. Fitzgibbon thought that whatever settlement is made, should include assurance of a better supply of gas by connecting with the big mains.

Councilmen, citizens and attorneys asked and answered questions during the evening but none of them mentioned a possible rate to be fixed in the new agreement.

Atty. Krick also representing the company talked at length concerning the relative value of Ohio and West Virginia gas. The latter contains more British thermal units per cubic foot. He also told of the difficulty in transporting gas in cold weather, low temperature effecting the pressure.

Incidentally there was some discussion of the new rate agreement.

Of Greek Ships Not a Part of Announced British Blockade

GREEK GOVERNMENT ACCEDED

To the English Demands Submitted By Kitchener

GUARANTEES OF SAFETY

It is Assumed, Have Been Given the Anglo-French Expeditionary Forces, and the Announcement From Athens of a Commercial Blockade Believed Premature.

(ASSOCIATED PRESS TELEGRAM)

London, Nov. 23.—The foreign office state no Greek ships are being seized or held up in the ports of the United Kingdom and that no blockade of Greek ports has been instituted or is in force.

No amplification of the foreign office statement is obtainable in official quarters. The universal deduction is that the Greek government has satisfied the British demands, submitted by Earl Kitchener, secretary of war, who was in Athens last week. It is assumed Greece has furnished guarantees of the safety of the Anglo-French expeditionary forces.

It is believed the announcements from Athens concerning a commercial blockade of Greece were premature, in that they presented the provisional intentions of the entente allies as an accomplished fact.

Recent despatches from the Near East have stated that the British government had inaugurated a "peaceful blockade" of Greece. A message on Sunday from Athens gave what was represented as the text of an official announcement from the British legation there, saying the Allied powers "have deemed it necessary to take certain measures which will have the effect of suspending the economic and commercial facilities which Greece has received from them heretofore."

It was stated that as soon as the Allies were satisfied as to the attitude of Greece, they would remove the obstacles now opposed to the arrival of merchandise in Greece.

The purpose of these measures, it was said was to induce Greece to guarantee immunity to Serbian, French and British troops which might be forced into Greek territory from hostile action by the Greeks.

Y. W. C. A. Campaign for Funds Starts Today With Prospects Bright, After Enthusiastic Meeting of Teams

Final plans for the big financial campaign to be conducted this week by the Y. W. C. A. were outlined today, and the following is a summary of the plans.

The association entertained the members of the various soliciting teams and their captains, and a number of guests prominent in the business and professional life of the city. Dinner of the courses of delectable appointments, was served at 6 o'clock to about sixty guests. The tables were prettily arranged with clusters of roses and chrysanthemums, and following the excellent menu, Mrs. J. B. Jones, president of the Y. W. C. A. acting as chairman of the meeting gave a short address and introduced the speakers.

Mrs. Jones first called upon Miss Elizabeth Hughes, campaign executive, who arrived yesterday from Charleston, W. Va., where she had just completed a big campaign for the association in that city. She was most enthusiastic over the work, and dwelt at length on the great good which has been accomplished by the association, which is its greatest assistance. The world has been covered by the Y. W. C. A. and in every country it reaches out and does a work for the girls, that never has been accomplished in any other way. For the girl whose home life has been severed, it houses her, feeds her, often provides work for her; makes possible the forming of desirable friendships, and makes for her a social life.

Miss Hughes will be in charge of the campaign this week and her great experience will do much to making it a success.

Mr. Frank L. Beggs was called upon and told of the first campaign conducted here for the purpose of establishing the Y. W. C. A. and how successful it had been. Mrs. W. C. Miller, the first president of the Newark association and now holding the office of vice president spoke of the work in Newark and Mrs. Mary Miller, probation officer of the juvenile court told how great an aid the association had been in her work and what it had meant to the girls who came under her supervision.

Rev. Charles H. Stull, pastor of the Fifth Street Baptist church, representative of the ministers of the city, told how the association was considered by the ministers to be one of the greatest auxiliaries of the church, and told of their willingness to assist in any way possible.

Mr. Charles L. H. Long of the American-Tribune, and Mr. C. H. Spencer of the Advocate, gave short talks, and Mr. Frank L. Johnson, secretary of the Y. M. C. A., spoke on "co-operation."

Superintendent Wilson Hawkins, who is one of the best "boosters" of the Y. W. C. A. possesses, has an opportunity to study the work of the association as it affects the student, and told how many of the High school girls found in the Y. W. C. A. an opportunity for good, wholesome recreation and also how it taught them to help others.

Mrs. George Pickup, who is captain of the captains of the soliciting teams, then gave final instructions to the girls under her charge. She outlined the work of the campaign and laid particular emphasis on the way that people should be approached when the solicitation was made.

U. S. Attorney Tells Jury a German Conspiracy Existed To Violate Customs Laws

(ASSOCIATED PRESS TELEGRAM)

New York, Nov. 23.—Efforts were made in the U. S. court today to complete the selection of a neutral jury for the trial of Karl Bueenz, managing director, and employee of the Hamburg-American line on charges of conspiracy to violate customs laws in sending supply ships to German warships.

The jurors were chosen yesterday subject to peremptory challenge. The first panel of talesmen having been exhausted in finding men who are certain that prejudices about the war will not sway their judgment in this case, a new panel was summoned today.

At the opening of today's court session, it became known that an important witness for the government had left the jurisdiction of the United States a week ago and is now in Bermuda. The name of this witness was not disclosed by Roger B. Wood, the assistant district attorney in charge of the prosecution. Mr. Wood said, however, that the man knew he would be wanted to testify.

No reason for the witness' trip to Bermuda, could be learned.

The jury box was filled within an hour after today's session opened and the jurors were accepted by

both sides and then sworn. Immediately after this Wm. Rand, of counsel for the defense, notified assistant attorney Wood that the defense would withdraw that part of the previous admission pertaining to the alleged connection of Captain K. Boy-Ed, German naval attaché with the acts charged by the government. This part of the admission made by the defendants stated that Capt. K. Boy-Ed had been consulted regarding the sending of steamships with supplies to German sea raiders and that the work had been carried on largely under the naval attaché's direction. No answer for withdrawing the admission was given.

In almost the first words of his opening address to the jury Mr. Wood charged that Captain K. Boy-Ed, German naval attaché, directed the chartering and loading of some of the vessels and that \$750,000 for relief of German warships was spent under his direction here.

"We expect to show" Mr. Wood said, "that this conspiracy extended from New York and Philadelphia, to San Francisco, and New Orleans. We expect to show that Dr. Bueenz employed a man named Kulenkampf to clear two vessels in a hurry from Philadelphia, at the very opening of the war, telling him that this was a desirable excuse, the Hamburg-American line should not appear in the transaction."

"We can prove that one of the vessels—the Berwind—was loaded with coal bought from the Berwind coal company and we understand that Dr. Bueenz wanted Mr. Berwind of the coal company to clear the steamer, but that Mr. Berwind demurred and Kulenkampf was called in to do the work."

"We shall prove that not long afterwards, Kulenkampf received \$770,000 from some place in Germany—he did not know where or from whom—that he put this money in two New York banks and that soon after Captain Boy-Ed came to (Continued on Page 2, Col. 2.)

Dishonest Advertising May Be Subject of Investigation National Trade Commission

(ASSOCIATED PRESS TELEGRAM)

Washington, Nov. 23.—Representatives of the Associated Advertising Clubs of the World appeared today before the federal trade commission to urge the commission to take jurisdiction over dishonest advertising as unfair competition within the meaning of the federal trade.

"We feel we are natural allies of the commission with our 14,000 members embracing 14 methods of advertising," said Herbert S. Houston president of the clubs.

"In addition to our national vigilance committee, we have in each state, separate vigilance committees and they come in contact with many interstate cases, which we think might well be laid by us before this commission."

James H. Keely, editor of the Chicago Herald, presented the view of a large number of advertising agencies that dishonest advertising was unfair competition.

HOPE

That Monastir May Hold Out Long Enough to Enable a Junction

OF FRENCH AND BRITISH FORCES

SIGNIFICANT INDICATION

With Serbians Now Valiantly Defending City

Of Course to Be Pursued By Greece Indicated By Remarks of Greek Minister of Justice Who Said British Tardiness in Aiding Serbia Precluded Country Joining Allies.

(ASSOCIATED PRESS TELEGRAM)

London, Nov. 23.—The latest news from the Balkans has revived hope in England that Monastir may hold out long enough to enable the French and British forces to effect a junction with the Serbians.

The Rome and London legations of Serbia have received reports of a great Serbian victory northeast of Pristina, but as these advices give neither details nor dates, there are doubts as to their importance.

It is now believed allied forces which may take refuge on Greek territory are hardly likely to be subjected to attack from the rear. The most significant indication as to the present attitude of Greece is contained in remarks made by M. Rallis, Greek minister of justice, who is quoted in a press dispatch as having complained bitterly of methods adopted by the entente allies. He argued that British tardiness in bringing effective support for the Serbians, made Greek participation impossible. M. Rallis declared, however, that the Greeks were determined to maintain neutrality and that the entente allies had no reason to fear danger if they should be forced across the Greek border.

The French military position in Macedonia is reported to have improved.

The assertion is made that the Bulgarians retired to their positions after a vain attack on the French lines.

The seat of the Serbian government has again been shifted, on this occasion to Prizrend, while the diplomatic corps has moved to Petch, Montenegro.

A message from Constantinople by way of Germany reports the resumption of a violent offensive by the allies of the Dardanelles. No official confirmation of this report has been received. Except for these of the Germans in front of Riga nothing of importance has reached the public from the eastern line. British artillery is busy on the western front, where the only other activity of late has been mining and aerial operations.

Rumania again figures in news of the diplomatic situation. It is reported the central powers are about to make a formal request to the Bucharest government to maintain its neutrality but are offering certain concessions if that nation will intervene in the war on their side.

GOVERNMENT REMOVED.

(ASSOCIATED PRESS TELEGRAM) Athens via London, Nov. 23.—According to diplomatic advices here today the Serbian government has been removed from Mitrovitz to Prizrend in Western Serbia near the Albanian border. The diplomatic corps has gone to Petch, Montenegro.

(Continued on Page 2, Col. 2.)

He, it concerns the public and is a question for public treatment," said Mr. Keely.

"Publishers deal in the sale of white space and the value thereof depends upon the confidence of the public in what is printed therein. To print a crooked advertisement in that space is to assault public confidence. To depreciate the value of advertisements is to injure one of the greatest of public utilities."

H. J. Keener, secretary of the National Vigilance Committee; Wm. H. Ingersoll, a New York manufacturer and Charles H. Porter, president of the Chicago advertising association cited numerous cases of misstatements of Chicago advertisements which they urged came within the jurisdiction of the commission.

E. F. Meredith of Des Moines, Ia., estimated that the association could present 5,000 such specific cases.

At the end of the hearing Chairman James suggested that the association present specific complaint in writing, that the commission might take up and act upon.

Mr. Houston said that would be done immediately.

TRY THIS MAN'S ADVICE TRY THE GREAT KIDNEY REMEDY

It always gives me pleasure to recommend anything that is right and so I feel it my duty to herald the praise of Dr. Kilmer's Swamp-Root. For years I was troubled with kidney disease and it was so intense that I was bedridden for days at a time. I gave up all hope and doctors for miles around gave me no help. Incidentally I tried several patent remedies and at last tried Swamp-Root. From the first it gave me relief and it was no time before I was able to be up and around and now I am perfectly well and able to work as I used to before my terrible sickness.

So now let me thank you for your wonderful discovery and take this opportunity to recommend it to all who suffer from kidney troubles.

Yours very truly,
WALTER SHIVER.

Rheumatism and Allied Pains—They Must Go!

The congestion of the blood in its flow causes pain. Sloan's Liniment penetrates to the congestion and starts the blood to flow freely. The body's warmth is renewed; the pain is gone. The man or woman who has rheumatism, neuralgia or other pain and fails to keep Sloan's Liniment in their home is like a drowning man refusing a rope. Why suffer. Get a bottle of Sloan's, 25c and 50c. \$1.00 bottle holds six times as much as 25c size.

An Old, Family Cough Remedy, Home-Made

Easily Prepared—Costs Very Little, but is Prompt, Sure and Effective

By making this pint of old-time cough syrup at home you not only save about \$2, as compared with the ready-made kind, but you will also have a much more prompt and positive remedy in every way. It overcomes the usual cough, throat and chest colds in 24 hours—relieves even whooping cough quickly—and is excellent for all bronchitis, bronchial asthmal, hoarseness and spasmodic croup. Get from any drug store 2 1/2 cups of Pinex (50 cent worth), pour it into a pint bottle and fill the bottle with the granulated sugar syrup. Full directions with Pinex. Keeps perfectly and tastes good.

You can feel this take hold of a cough or cold in a way that means business. It quickly loosens the dry, hoarse or painful cough and leads the inflamed membranes. It also has a remarkable effect in overcoming the persistent loose cough by stopping the formation of phlegm in the throat and bronchial tubes.

The effect of Pinex on the membranes is known by almost every one. Pinex is a most valuable concentrated compound of genuine Norway pine extract combined with mineral and other natural healing elements.

There are many worthless imitations of this famous mixture. To avoid disappointment, ask your druggist for "25c cures of Pinex" and do not accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Judge The Future By The Past

When a man invests his savings, he cannot afford to take any chances whatsoever. He should not put his money into anything without a long record of demonstrated safety.

The promises of over-confident promoters, the hopes of inventors, the temporary success of business ventures should never tempt him from the determination to have his savings safe above all else.

With these thoughts in view, consider the thirty-five years record of this Home Building Association Co. of Newark.

REASONS FOR SUPPORTING Y IN NEWARK, O.

Reasons why the Newark Y. W. C. A. should be maintained are here stated:

BECAUSE a suitable building would serve as a center for all women of the city.

BECAUSE the Association is a practical, every-day-in-the-year agency for the betterment of young women.

BECAUSE there are a hundred and one attractions of a demoralizing nature open to young women. A well-equipped Association is a great counter-attraction.

BECAUSE there are many self-supporting young women away from their own homes, who find the Association a "real home"—a place in which to entertain their friends.

BECAUSE it is a social center, where needed recreation may be had under wholesome conditions.

BECAUSE the work must not be retarded.

BECAUSE hundreds of young women will be introduced to influences which make better homes and better citizenship.

BECAUSE it is a place of social service for the girl who has had training, for help for the girl who has never had a chance.

The campaign for Y. W. C. A. subscriptions is on this week. Let everybody help!

him and told him that the money was to be spent under his (Boy-Ed's) direction. We shall show that \$300,000 to \$600,000 of this money was spent to San Francisco where it was spent to charter and supply three ships with coal and provisions and that these ships sailed out and met the German cruiser Leipzig, and perhaps the Dresden.

"One hundred and thirty-five thousand dollars of this money, we shall show, for the purchase outright of one of these three vessels and all of the \$750,000 was spent under Captain Boy-Ed's personal direction and instruction.

"Sixteen or seventeen ships were used," Mr. Wood continued, "by the defendants to carry coal, water, wine, sauerkraut and other needed supplies to the Leipzig, the Dresden, the Cap Trafalgar, Eba, Santa Lucia, Eleanor Woerner, and other German men of war. These steamers all carried supercargoes placed aboard by the defendants, each supercargo bearing sealed instructions which were opened after the vessel steamed away, sometimes within the three mile limit. The defendant Kotler, we shall show, signed letters which the supercargoes carried and these letters addressed to the captains of the steamers selected to supply German warships, instructed the captains to obey the supercargoes and promised them liberal gratuities for doing so.

"We shall show that after these vessels sailed for Buenos Ayres, LaGuayra, Cadiz, Monrovia and other destinations, the supercargoes instructed the captains to go elsewhere and that the captains obeying these instructions, took their vessels to meet German warships at sea and to deliver to the warships the supplies aboard.

"We shall show that these defendants conspired, at various meetings to do all these things; that in so doing they rode roughshod over the laws and treaties of the United States as contemptuously as if these laws and treaties had been mere scraps of paper."

Mr. Woods address lasted less than 40 minutes.

W. M. Rand, counsel for the defense opened with these words:

"So far as certain facts are concerned we concede that they are just as Mr. Woods stated them to be."

"We concede that certain ships sailed from American ports to supply German warships and admit that these ships were outfitted by Dr. Boy-Ed and the other defendants, but deny that the acts of the defendants constitute conspiracy," Mr. Rand added. "On or about August 1, 1911, Dr. Bueaz received from his home office in Germany orders in cable directing him to charter a number of steamships here, place provisions, coal and other supplies aboard, and send them to a designated place in the Atlantic there to await the appearance of German warships to

which the supplies were to be delivered. He was acting on those legitimate orders in chartering these vessels.

The first witness was Richard D. Wrigley, a steamship broker of this city, who testified that he chartered on August 3, 1911, to the Hamburg-American line the American steamers Lorenzo and Herwind, the first two vessels which sailed for the German Atlantic fleet. John H. Gans acted for the line, Mr. Wrigley said, in the transaction, giving indemnity bond to the owners for full value of the vessels, \$350,000 and \$260,125 respectively.

"This was done in case anything should happen and the vessels not be returned to us," he said. "We could not get war insurance at the time, and some guarantee was necessary."

TWO FIRES CALL OUT DEPARTMENT MONDAY NIGHT

In less than an hour Monday evening, the fire department responded to two calls in opposite parts of the city. The first alarm came in at 5:50 o'clock from the lower end of Wehrle avenue, where a smokehouse was burning. The blaze was extinguished but not until the small structure had practically been consumed with its contents, consisting of hams and side meat. A forefinger had converted a chicken coop into a smokehouse and the fire got too hot, setting fire to the structure.

An hour later a fire was discovered in the dining car of the wreck train standing in the B. & O. yards, and before the fire department got into action the car had been badly damaged.

The ladder truck from headquarters responded to both alarms, the hose truck from central responding to the alarm from the B. & O., making the run without mishap. On both occasions the power of the engines in the machines was demonstrated when in turning, the wheels sank into the soft earth. Both times the trucks pulled out without difficulty.

GIRLS-DO YOU KNOW WHY YOUR HAIR IS UGLY?

It is astonishing how much good looking hair does toward producing a youthful appearance and still more astonishing to realize how much the attractiveness of the hair is affected by the care we give it.

Loving care and frequent attention are as necessary to keep a woman's hair beautiful and luxuriant as is the tooth brush to keep teeth from decay.

Every woman who values the beauty of her hair as she ought to do should make it a never broken habit to frequently apply a little Parisian Sage, rubbing it briskly into her scalp with the finger tips.

Parisian Sage is Nature's modern handmaid to beautiful feminine hair. It is a simple, harmless compound of wholesome, nutritious ingredients that make an ideal lotion for nourishing both hair and scalp. It feeds and builds up the delicate hair and scalp structures making the hair soft, lustrous, brilliant and easy to dress and arrange. W. A. Erman and many other of our best druggists sell Parisian Sage and gladly recommend its use.

SOLDIERS' MEETING

The open meeting by Lemert Post on Sunday afternoon was one of unusual interest. It was Frazesburg day. The Grand Army comrades of Frazesburg, by invitation, gave the program and every number was a gem.

Talks were made by Comrades C. M. Bell, J. R. Garrett, Capt. John A. Evans, E. J. Williams, Capt. H. Thompson, Chas. P. Henry and others.

These comrades, 50 years after the close of a great war, put to shame the statement that long hard military service degenerates the manhood of those who survive. It would have been well could every young man of Newark have heard those talks that so forcefully told the story of American patriotism at its best. A story that the young men and women all over the country should understand better than they now do. Without the spirit of this story the future safety of our country must ever be in peril.

Comrades, thank you. Come again. F. G. S.

There's an institution in Newark that wants to have a hand in helping to make you feel better. It is the YOUNG WOMAN'S CHRISTIAN ASSOCIATION.

A PREACHING MISSION AT TRINITY CHURCH

The Episcopal church is to undertake a Nation-wide Preaching Mission next week. Trinity church of this city is to participate in this great movement.

A Mission will be preached in this parish, beginning next Sunday. The Mission will last eight days and there will be from two to three services every day. The Sunday services will be at the usual hours. There will be a popular preaching service every evening at 7:30. On Tuesday, Wednesday, Thursday and Friday, there will be a Children's service at 3:45 in the afternoon. During the week, The Holy Communion will be celebrated every morning at 9:00.

The Rev. H. H. Sterrett, rector of St. Paul's church, Columbus, is to be the Mission Priest. Mr. Sterrett is a graduate of Harvard University and his theological training was received in the General Theological Seminary of New York City and Cambridge Divinity School of Cambridge, Mass. He is a man of force and power and comes with a great message. Come to the Mission. Everybody welcome.

Board of trustees: Frank L. Beggs, president; Judge Robbins Hunter, Mrs. Carl Norpell, Mrs. F. S. Wright, Mr. C. H. Spencer and Mr. Charles C. Metz.

The greatest enthusiasm marked the meeting and the solicitation this morning was started with but one feeling and that was of hope for success, and with the Y. W. C. A. campaign slogan before one, "America stands for a fair chance for every girl. The Y. W. C. A. provides it. Are you an American?" It is probable that the people of Newark will most liberally respond to the appeal.

Little more than one-third of the required amount was raised on the opening day of the Y. W. C. A. campaign for maintenance of the work but the solicitors realize that many of the largest subscriptions have been received and they know that it will require hard work to secure the needed \$9,000 by next Monday.

At noon today the committees reported subscriptions amounting to \$3,796.20. This amount included a contribution of \$600 from Capt. A. H. Heisey who is always very generous in charity work.

The solicitors are divided into seven teams each headed by a captain as follows:

1—Frank L. Johnson \$ 405.00
2—Fred Evans 405.00
3—Miss Mary McClure 692.20
4—Mrs. A. S. Mitchell 750.50
5—Mrs. A. B. Hatch 434.00
6—Chas. C. Metz 558.00
7—Miss Mabel Jones 552.00

Total \$3,796.20

The names of contributors to the Y. W. C. A. fund are to be published in the Advocate but the amount of each subscription is not to be given in the newspapers.

sion of the future possibilities of artificial gas. Mr. Krick stated that it had been the experience of those studying the proposition that it was impossible to transport artificial gas long distances because the gas condenses under the heavy pressure necessary, becoming a thick liquid substance which fills the mains and interferes with the flow of gas.

Before the meeting adjourned, the city agreed to furnish the company with a list of questions covering the points on which information was desired and that an investigation would be made independent of the company's service along that line.

collect French wounded. General followed in an automobile to take direction of the action on the ground. Bulgarians are bringing up heavy forces in the neighborhood of Prilep. The French plan of campaign seems to have been to occupy as quickly as possible the maximum number of positions of natural strength and to take care of their communications as effectively as could be done with the forces available. When one position thus held is made the object of a serious attack, the French withdraw; as the complete lack of effective means of transportation renders the rapid shifting of troops from one position to another impracticable.

A striking feature of the campaign in Serbia is its utter unlikeliness to that in France. Their camps are constructed for only temporary use in actual battle. The broken country facilitates the employment of tactical skill in which the French seem to be superior to the Bulgarians notwithstanding their lack of familiarity with the country.

Neither battlefield nor encampments resembled in the least those in France.

The soldiers are camped in tents in the open plain, as the Bulgarians thus far have not employed aeroplanes. The camps are changed frequently to keep pace with the movements of the battlelines.

Artillerymen for the first time since the beginning of the war often have the opportunity of actually seeing the mark where they are aiming. The famous French 3-inch guns, firing almost with the rapidity of machine guns, inflict extraordinary havoc on the Bulgarians.

French aviators are enjoying the opportunity, presented by the lack of Bulgarian aircraft guns, of flying low over the positions of their opponents and actually photographing them with such details as to reveal the numbers and locations of the hostile forces. The Serbians in

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

DRAW VENIRE FOR PRESENT COURT TERM

MAY BE NEEDED IN CASES YET
TO BE HEARD BEFORE
ADJOURNMENT.

Attorney General Turner Files Motion
Through Local Attorney—
General News of Courts.

Anticipating that a new venire will be needed in cases to be tried in criminal court before Judge Harry Jewell of Delaware, the following additional jurors were drawn today for the September term:

Robert M. Davidson, city.
Adam M. Wells, city.
J. Shaffer, Granville.
W. O. Dunlap, Burlington township.

John M. Beem, Lima township.
John B. Pendleton, Licking township.

E. M. Rowe, Jersey township.

The jurors have been ordered to appear on Monday, Nov. 23, the date set for the trial of Addison L. Rawlings.

In Common Pleas.
In common pleas court the court and a jury took up the trial of the case of the State of Ohio, ex rel. Vera Hardsock vs. Noah Walker. The suit is a paternity case, complainant alleging that the defendant is the father of her infant child. The defendant denies it.

Nathan Frad vs. The Howell Provision Co., et al. A motion was made by Edward Kibler Sr., on behalf of Attorney General Edward C. Turner of the state of Ohio, for leave to be made a party defendant in the suit and file a cross petition. The state desires to recover the corporation tax. The court sustained the motion, and the cross petition was filed instantly. The amount involved is \$383.05.

For trial Monday next—State of Ohio vs. A. L. Rawlings; State ex rel. Laura Bishop vs. Joseph Varnier; Fruit Despatch Co. vs. F. Lisey & Co.; Swisher vs. Swisher.

Justice Scott's Court.
Andy Dehos was arrested on an affidavit issued from Justice F. S. Scott's court, subscribed to by Mrs. John Alex, who charged him with a breach of the peace. He gave bond for his appearance and his hearing was set for tomorrow afternoon at 1 o'clock. The parties reside in Bohn Court.

Hearing Monday.
A young man named Dollson was arrested on an affidavit subscribed to by Elmer Jones, who charges the former with defrauding a livery stable keeper. He was brought into Justice F. S. Scott's court and his hearing set for Monday morning at 9 o'clock.

Viewing Road.
Commissioners Jos. H. Orr, Frank R. Dunn and Orville Kiger were in Burlington township viewing the proposed road petitioned for by Theodore Haines. It would be a short road intersecting with the Homer pike at the Ohio Fuel company's power station.

Damage Suit.
Susan Clouse has filed a petition in common pleas court against The Ross Weiss Co., and John Moran, in which she asks for \$10,775 damages for injuries which she alleges she sustained in a fall down a cellar way in a storeroom of the Ross Weiss Company at Johnstown, O., and which is said to be owned by John Moran. Plaintiff alleges she sustained a fracture of the collar bone, had her right shoulder dislocated, right leg strained and cut and her right arm dislocated.

Marriage License.
Alfred F. Kincaid, a baker, and Miss Mabel A. Bradley, a milliner, both of this city.

FORD CALLS UPON PRESIDENT WILSON

(Associated Press Telegram)
Washington, Nov. 23.—Henry Ford called on President Wilson today in support of the movement for a neutral conference to attempt to end the European war and establish a permanent peace. He told the president he considered Christmas the best time for such a movement, but declined to say how the president had received his suggestions.

AGED MAN HAS BLOODPOISONING.

Robert Irwin, 80 years old and residing in Monroe street, was removed to the Newark sanitarium at noon today.
Recently Mr. Irwin, in some way unknown, bruised his left leg and bloodpoisoning has developed. Mr. Irwin is seriously ill and owing to his advanced years his condition is considered serious. Dr. C. F. Legge is the attending physician.

FRAGMENT OF FLAG OF LOST SUBMARINE UNDER A GLASS CASE.

(Associated Press Telegram)
Washington, Nov. 23.—A tattered fragment of cloth, placed under a glass case in the office of Secretary Daniels, is all that remains of the flag that flew from the submarine E-4, lost in Honolulu harbor with her whole company.
The ensign had been taken down and stored in a locker before the boat submerged on the fatal trip and all that was found was a few inches of cloth from which every vestige of color has been washed by the sea water and acid of the boat's batteries during her five months' stay at the bottom of the ocean.

Stomach Troubles Quickly Cured.

People go on suffering from little stomach troubles for years, and imagine they have a serious disease. They over-eat or over-drink and force on the stomach a lot of extra work but they never think that the stomach needs extra help to do the extra work.
If these people would take Tonoline Tablets regularly they would be a great big help to the stomach in its strain of over-work. No matter what you eat or drink Tonoline tabs sweeten your sour stomach and stop gas belching in five minutes. The heaviness disappears, and the stomach is greatly aided in its work of digestion.

Tonoline Tablets
not only promptly relieves all distress, but if taken regularly will absolutely cure indigestion by building up the flabby overworked walls of the stomach and make them strong enough to digest the most hearty meal. \$1. for 15 days' treatment.

AUSTRIA-HUNGARY MAKES PROTEST TO STATE DEPARTMENT

(Associated Press Telegram)
Washington, Nov. 23.—Officials of the state department and the department of justice, were today, considering a protest by Baron Erich Zwiadinek, charge of the Austro-Hungarian embassy, that a statement issued in the name of the department of justice apparently tended to confirm allegations of illegal activities on the part of the Austrian consular officials, made by Dr. Joseph Gorier, former Austrian consul. The protest was lodged with the state department.

The statement said that A. Bruce Bielaski, chief of the bureau of investigation of the department of justice had conferred with Dr. Gorier in New York and obtained much information of value, "concerning the activities of Austrian counsel General Nuber and his associates," this reference was what the charge objected to.

It was upon his own initiative and not upon instruction from the Vienna foreign office that Baron Zwiadinek complained to the department. Officials consider the complaint more or less justified and at the state department and the opinion seemed to prevail that unless the department of justice disclaimed the authority of the statement the Austrian foreign office might make inquiries.

ARMY AVIATORS ARE BLOWN OFF THEIR COURSE

(Associated Press Telegram)
Austin, Texas, Nov. 23.—Four of the aeroplanes of the United States aero squadron in flight today from Waco to Austin, were reported missing this afternoon by Lieutenant T. D. Milling, one of the aviators, after he had landed at the stopping place here. Lieutenant Milling appealed to all available sources to help locate the machines which had failed to arrive more than two hours after the flight of about 100 miles began.

Two of the United States army aviators have been definitely located at Lampasas, where they made a safe landing. With two machines here and one at Kingsland, only one aviator is unaccounted for. Lieutenant T. D. Milling says that a strong east wind encountered after rising at Waco blew them off the course to the west and created a haze which made it impossible to follow land marks.

The four aviators after being lost for nearly two hours in a haze discovered their bearings early this afternoon and resumed their journey to Austin. Two machines arrived here on time before noon. A third machine came in soon after one o'clock, and the other three were then in the air headed for Austin after having drifted in the haze nearly 50 miles westward of their course.

PRESENTED TURKEYS.

Twenty local employees of the Wells Fargo Express company were presented with Thanksgiving turkeys today, being a gift of the company. This is an annual custom of the company, a turkey being given to each one of the company's employees in the United States. Over 25,000 birds are required and they are purchased in Texas. All were dry picked, placed in baskets and shipped to their destination. The Turkeys received here came from Cincinnati.

Your chance to help and to feel better by doing so, is right now in front of you. Don't let it slip, and be ready when called upon to respond with your subscription to the Y. W. C. A.

RATE EXPERT IS CROSS EXAMINED IN COAL CASES

(Associated Press Telegram)
Columbus, Nov. 23.—Conway W. Hillman, rate expert, employed by the Sunday Creek coal company, went on the witness stand today for cross-examination by railroad counsel in the Public Utilities Commission inquiry into inter-state coal carrying rates.
Hillman testified that present rates are too high, several weeks ago after he had made an extensive audit of the railroad company's records. Railroad counsel today sought to show that he did not include many items of expense in the coal-carrying classification and that consequently his figures on the cost of hauling coal were too low. They had brought out previously that he was paid by the Sunday Creek coal company but acted under authority of the utilities commission in making his investigation of the railway books, in an attempt to show his testimony was prejudicial.

SON THOUGHT SHOT STRUCK HIS FATHER

Burt Morrison, 25, residing in the Flint ridge vicinity, accidentally discharged a shot gun at the Morrison home late Monday afternoon and when his father, Isaac Morrison yelled out "you shot me, get out o' here," young Morrison fled to the home of a neighbor without investigating. There he told what had occurred and a call was sent to police headquarters here.
Police Chief Sheridan and a squad of officers went to the scene in the police automobile. Arriving in the vicinity of the Morrison home, they stopped to inquire their way when the elder Morrison himself came out to answer their questions.
Explanations were made and Morrison was found to be unhurt. He did not say why he had told his son that he had been hit by the charge from the shot gun.

CIRCUS TRAIN IN COLLISION; SEVEN KILLED

(Associated Press Telegram)
Columbus, Ga., Nov. 23.—Seven persons at least were killed and 42 were injured near here late last night, when a circus train collided head-on with a passenger train on the Central of Georgia railroad. A misunderstanding of orders brought the two trains together on a straight track and much of the wreckage was burned. At least six persons were burned to death and a seventh died in a hospital. All the dead were members of the Kennedy Carnival company, which was traveling on a train of 28 cars. None of the injured will die.

P. O. WILL MAKE ONE DELIVERY THANKSGIVING

Thanksgiving day will be observed as a holiday in the local postoffice. There will be but one delivery of mail, on Thanksgiving morning, and the general delivery and parcel post windows will be open until 10 o'clock that morning. The money order department will be closed all day. There will be no delivery on the rural routes.

As the holidays approach, the post-office department is experiencing trouble again with tinsel post cards. The regulations of the postal department require that these cards be placed in a sealed envelope and that a two cent stamp be affixed. Many of the cards are being mailed as postal cards, and with only one cent postage, and as a result many of them never reach their destination.

SEEKS RELEASE OF AMERICAN DOCTORS NOW AT SALONIKI

Saloniki, Greece, Nov. 17.—(Via Paris, Nov. 23.)—Dr. Edward Stuart, of Boston, is endeavoring through the American and Bulgarian consulates to obtain the release of four American physicians who remained at Uskup after the Bulgarian occupation. The men he seeks to free are Stanley S. Osborne, of Peabody, Mass.; Charles E. Fox, of Baltimore; Henry Plotz, of New York, and George Bahr, of Brooklyn. Dr. A. F. Cornelius of Berea, Ky., has announced that he proposed to remain in Uskup at the Lady Page hospital.

VISITING GRANDPARENTS.

Master Brandt Smythe Hervey, eight years of age, arrived in the city today for his annual visit with his grandparents, Mr. and Mrs. B. G. Smythe, of North Fourth street. The young man travels alone, going from his home at Martins Ferry, O., to Wheeling, W. Va., where he made connections for this city. He is a bright little fellow and always looks forward to a visit with his grandpa and grandma as the chief event of the year, Christmas not accepted.

AMERICAN & IDEAL RADIATORS & BOILERS

In many cities and states the law now compels that all newly-built schools shall be outfitted with our ideal way of heating (all greenhouses, sanitariums and hospitals have long ago adopted and proved it to be the only perfect way). If your child is thus wisely, sanitarily protected in school, why not adopt this right way at home?—*absolutely guaranteed* with an outfit of heating in your home, since iron prices now rule so reasonable and IDEAL Boilers and AMERICAN Radiators can be so quickly and simply put into cottages, stores, churches, and other structures already built, in town or country.

No need to discard old heating devices until ready to start fire in the IDEAL Boiler—quickly put in, in the "dead of winter." IDEAL Boilers and AMERICAN Radiators are a substantial investment, as they will outlast the building. Their purchase will increase the sales and rental value of the building and they will soon repay their cost in savings in fuel, labor, repairs, and in the lessened house-cleaning and wear on carpets and furnishings. Martins Ferry Has Seven College Players in Lineup; Plays Here on Thanksgiving

When Newark lines up for the kickoff Thursday, against the Martins Ferry eleven, the McDaniel gang will find opposed to them at least seven men who got their football training on college teams of note. Navy, Georgetown, Syracuse, Toulane, Bethany and West Virginia Wesleyan eleven are represented on the eleven.

This fact alone should indicate that Newark has a hard proposition before them. The Martins Ferry team will line up as follows:
L. E. Owens; L. T. E. Mullany or Kohrson; L. G. Jeffries or Jacobs; C. Barth or Hodge; R. G. Grange or Dixon; R. T. Morgan; R.

ESTABLISHED IN 1820

Entered as Second Class Matter
March 10, 1882, at the Postoffice at
Newark, Ohio, under Act of March 4,
1879.

About now the hens are conduct-
ing egg laying contests to see which
shall lay the least number.

The European powers have a
thorough respect for moral ideas
when they are well backed up by
modern artillery.

It was very thoughtless for the
Panama canal to have slid while the
exposition is being held commemo-
rating its opening.

The lofty and magnanimous prin-
ciples of the Balkan nations compel
them to espouse the side that they
think is going to win.

Massachusetts is having an excit-
ing political campaign, in which both
parties agree that the Red Sox are
the best ball team in the country.

Some people who never saw much
need of a secret ballot are finding
out its advantages this fall in the
states that vote on woman suffrage.

When the people begin to turn
around and look in wonder at her
hat, the modern girl has a feeling
that her milliner must be pretty
good.

The politician's idea of Prepared-
ness is getting a comfortable plum
out of that \$400,000,000 that the
United States proposes to spend on
better defense.

Some people seem to think that a
company of rural militia and a few
old cannon used in the Civil War
would be sufficient as a defense
against a modern army.

The newspapers are all printing
jokes about the Ford car, but there
are a lot of other makers that would
be glad of a share of the free ad-
vertising space thus given away.

The vice presidency is a very im-
portant office, but a good many
politicians seem to think it can be
filled by snapping up a cent after a
lot of the delegates have gone home.

The note to England about inter-
fering with commerce contained 20-
000 words, and the average citizen
gave intelligent consideration to its
arguments by reading the newspaper
headlines.

The pictures now being publish-
ed on the newspaper sporting pages
are not delegates to the fat men's
convention, but merely some beefy
football players rigged up in their
padded suits.

Some one is trying to start a
"back to the saddle" movement, in
other words to revive horseback rid-
ing. But the "up on the cushion"
movement into the back seat of an
automobile is more popular.

The question is asked what has
become of the boy that used to spend
all day Saturday working around the
home place? Well, he's long ago
grown up, and is probably now rak-
ing up the front yard while his boy
goes off with the football team.

Stock Breeding Interests.

During the month of November,
26 conventions were to be held at
the Panama-Pacific exposition, of
association of stock breeders, poultry
raisers, etc. The stock breeders
meetings are mostly of sheep and
swine growers. The number and
strength of these associations is a
revelation of the growing interest in
all kinds of stock raising.

Formerly a pig was a pig and a
sheep a sheep. The majority of
farmers thought little as to the
breeds to which they belonged. Sev-
eral different breeds were usually to
be found in the same pens. The
"general products" lacked the dis-

communities, the working people
still scramble for the 7:12 train for
the city office as they did of yore.
But in wealthier neighborhoods the
sociable sight of the whole mascu-
line element rushing en masse for
the 8:34 is no more. The swift mov-
ing motor gives the business man
five minutes longer over his egg and
coffee.

The railroads for the time being
will be hard put to it to make
economies to counterbalance this
loss. Perhaps they could cut off
some nearly empty sleeping and par-
lor cars. Many of these are hauled
over long distances with three or
four people lonely in solitary gran-
deur. These cars are heavy and it
costs good money to haul them.

The railroads will always continue
to be the great democratic highway
for the mass of the people. Long
tours in a motor car have zest for
a time. But in time it ceases to be
a novelty. The train covers the dis-
tance in the least time and the
greatest certainty. It costs more
and more money to build a railroad,
so that an existing right of way gets
more and more valuable. The
country is growing, and there will
be many freight shipments addi-
tional for every motor party that is
lost.

A Critical Month In War.

(Philadelphia Record.)
Unless all signs are at fault the
month of November, which will be
the sixteenth in Europe's great war,
is likely to have witnessed events
which will have great weight in the
determination of the final result. In-
terest will probably center in the
Balkans, because of the spectacular
Teutonic drive toward Constantinople
and the increasing probability that
Rumania and Greece will be drawn
into the gigantic struggle, but it may
be doubted whether the fight which
rages around Serbia is to be viewed
as more than a side issue. It seems
true now, as at the beginning of the
war, that the ultimate decision will
be reached on the eastern or western
battle fronts of Europe, and that op-
erations in the Balkans, intensely
interesting though they may be, will
be of subordinate importance.

The report which comes from Pet-
rograd that the Germans and Aus-
trians are withdrawing from the
Russian province of Volynia is, if
confirmed, a matter of deep signifi-
cance. It foreshadows the collapse
of the German invasion of Russia and
a retirement to a line of defense in
Poland. Such a confession of de-
feat make a deep impression upon
the wavering Balkan nations, and it
would also go far to put new heart
and courage into the allies.

General Joffre's visit to England is
taken as indicating a more united
military policy on the part of France
and Great Britain, and the cabinet
changes in both countries are inter-
preted as meaning more vigorous ac-
tion than ever before. There is to be
no thought of peace until one side
or the other throws up its hands and
confesses itself beaten. In carrying
out a vigorous offensive the allies,
now possessing plenty of men and
abundant supplies of munitions, may
be expected to push operations with
all possible energy this month in
France and Belgium, in the hope of
pushing the Germans well back be-
fore the winter sets in. Italy seems
to be following the same tactics in
its campaign against Austria-Hun-
gary.

It will thus be seen that this No-
vember is likely to bring many thrills
and surprises and that the end is
still far away.

Other Side of the Story.

(Chicago Herald.)
The newspapers have been full of
the tales of fortunes won in dancing
with what have been termed the
"war brides" of the stock exchange.
For obvious reasons little has been
heard about the fortunes lost in that
form of amusement. The average
man doesn't publish his losses when
they are recent, though he may boast
of them when old and gray and
"down and out."

However, we hear of these losses
occasionally in another connection as
explanations of the appearance in
the criminal court of some men who
held a fiduciary trust and forgot that
others' money was not his to play
with. Now and then we hear of them
through other channels.

For instance, a financier whose
name is known throughout the land
stated in private conversation in
Chicago the other day that a friend
in a middle western city who was
worth \$7,000,000 a year ago wasn't
worth 70 cents today. Why? Dancing
with the "war brides" until his
very ample fortune was danced away.
It is a truism of commerce that in
every transfer of commodities there
should be a profit for both parties.
The truth should be equally recog-
nized that for every gain in "trading
on margins" there is an equiv-
alent loss, just as there is in betting
on the turn of a card. When one
player wins another must lose.

No man ever did and none ever
will permanently "beat" the game
of speculation. Trying to do so is
like trying to "break the bank at
Monte Carlo." The losers match the
winners and from the latter is also
taken the "rake-off" of the house.
That's the other side of the story,
and one which receives far less gen-
eral reading than it deserves.

Service and Servility.

(Chicago Tribune.)
When Anthony Trollope visited the
United States during the civil war
he noted, as almost all foreigners
have done, the rudeness of the
natives. Porters accepted his lug-
gage with bad grace, and the things
were paid what they asked for
their services, courtesy did not go
with them. Even conductors on the
train expressed irritation over the
discharge of their duty. Other

writers from foreign countries have
made the same observation without
the kindly analysis which Trollope
ventured. He said that we were a
people drunk with liberty, a land
where no man dared do a service
even for society without being
churlish about it. Uncle Sam was
wearing liberty and equality like a
chip on his shoulder.
Mr. Trollope would probably find
less to criticize on the score now.
One may find recrudescences of
this studied discourtesy in the new
parts of the country, but servility
and courtesy have assumed them-
selves in the minds of the most of
us. Perhaps business has put a
premium on politeness. But whether
the reason be commercial or cul-
tural, American churlishness is vanish-
ing.

Spirit of the Press

The Iron Crescent?
The appearance of the Kaiser as
a Muhib ul Islam, or a sort of Mahdi
or Khalifa, the Messenger of Mo-
hammed, the joint commander with
Allah of the military operations of
the Faithful in a Holy War, would
present serious difficulties in the
theological aspect of his leader-
ship. There is no reason to doubt,
however, that if such a situation
should arise Wilhelm would prove
fully equal to the occasion.

But would even he continue to be-
stow the Iron Cross with one imperi-
al and royal hand while the other
was busy in distributing crescents
of the same metal?—New York Sun.

It's Wisdom Too.
An exchange hands out the follow-
ing wisdom: "Early to bed and
early to rise; cut the weeds and
swat the flies; mind your own busi-
ness and tell no lies; don't get gay
or deceive your wives, pay your
debts, use enterprise, and buy from
the firms that advertise."

More Lucrative.
If we were even more anxious to
amass wealth than we are and had
even less conscience than we have,
we believe we'd abandon the noble
profession which we have the honor
to be engaged at present and go into
the business of recommending in-
vestments to well-to-do widows.—

these are the people who have de-
graded our literature.—Montgomery

A Pine Whooping Cough Remedy.
Mothers, Dr. Bell's Pine-Tar
Honey is just the remedy for your
children's cold ailments. The fact
is that pine is a quick enemy of cold
conditions. Its qualities loosen the
mucus in the throat, soothe the
lungs and open up the air passages.
The combination of honey, soothing
and pleasant, with the pine, of high
quality makes this an ideal cough
remedy for children. Each passing

THE OLD FLIRT AGAIN

Rippling Rhymes

Too Many Churches.

In Pumpkinville the fourteen
churches have no support that's
strong and stout; and all the time
the village searches its clothes for
corn to help them out. The pastors
go upon their uppers, they're hungry-
looking and lean, as the arrange for
chicken suppers, to pay for coal and
kerosene. They can't put much into
a sermon, not much of eloquence or
vim, with each so poor he can't de-
termine just when the poor farm will
get him. The churchyards all are
rank and weedy, for none will pay to
mow the grass; the churches all look
frayed and seedy, they're needing
paint and window glass. In Pump-
kinville one church might flourish,
and be a prosperous concern, and
there'd be wealth its work to nourish,
while yet the lamp holds out to
burn. An it could hire a pair of
dingers of clergymen, in turn to
preach, and can the bunch of hay-
seed singers, engaging some who've
learned to screech. But Pumpkin-
ville has fourteen churches, and each
is poorer than the rest, and ever-
more the village searches for pennies
for them, in its vest.

Why is it that when a man marries a

Society

The girls of the Twentieth Century club met at the home of Miss Helen Norpell on the Granville road. The hours were spent in games and music after which a dainty luncheon was served. The next meeting will be at the home of Mildred Simson.

The Wednesday Bridge Club is being entertained this afternoon at the home of Mrs. Dowden in Hudson avenue. Miss Louise Hunter as hostess.

Mrs. Charles H. Simson will entertain the members of the Country Club Luncheon club at the home of Mrs. Dowden in Hudson avenue on Wednesday.

On Monday afternoon the Monday Talks convened in the social rooms of the First M. E. Church. Owing to the absence of Mrs. Schmitt, who had the first paper on the calendared program, Mrs. Charles Montgomery gave a talk on her trip through the Grand Canyon, and Miss Louise Hunter gave a paper on "Florence Nightingale." Mrs. E. T. Johnson who recently attended a suffrage conference in Columbus told briefly of the meeting and Mrs. Linda Gregory gave current events.

Miss Mabel Baumgarten very pleasantly entertained the members of her tating club on Monday evening at her home in 56 North Sixteenth street. The hours were devoted to music and the club work, and dainty refreshments were served by the hostess.

Miss Roseanna Dennison entertained at her home in Lawrence street on Monday evening with a point euehre party, honoring Miss Katherine Riordan of Chicago. The trophies for the game were awarded to Misses Elizabeth Devlin and Helen Stapleton, and Messrs. William Floyd and Ted Devlin. Luncheon was served the following guests: Mr. and Mrs. Homer Robinson, Mr. and Mrs. William Floyd, Mrs. Leo Thomas, Misses Katherine Riordan, Helen Stapleton, Florence Hickey, Rosemary Floyd, Grace Dennison, Irene Cosgrove, Elizabeth Devlin, Bernice Floyd and Nellie Howarth. Messrs. Ted Devlin, George Bowman, Stephan Costello, Willis Cooper, James Floyd and John Killeen.

The Centum Dancing Club will give the second dance of their winter series, Wednesday evening at Assembly Hall, dancing from 8.00 to 12:00 p. m.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as the assertion that inferior baking powders made of alum or phosphate of lime are as good as Royal, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Royal Baking Powder is as pure and wholesome as the vineyard grapes from which its cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphate is because their cost is less to the manufacturer.

Music

Taylor Hall was about three-quarters full last evening upon the occasion of the first of two song recitals given by Jane Tuttle and her two assistant artists, Miss Ruth Klauber, pianiste, and Miss Genevieve Fordrea, violinist. The recitals are given under the auspices of Philomena Wehrle Tent, Daughters of Veterans, and a huge American flag formed a back ground for the stage presence of the artists.

Miss Tuttle sang a number of songs, one of which was with violin obligato, and the generous applause of the audience indicated that they

were received with much pleasure. Miss Klauber is an artist upon the piano whose future should not be in doubt, under proper environment and with that encouragement which would be an incentive to conscientious efforts to develop. Her touch is skillful, and discriminating judgment is used in her phrasing, the importance of which she has a proper comprehension.

The artist possesses really brilliant technique, at all times under easy control so that it is not difficult for her to give the adequate attention to the temperamental rendition, upon which her individuality was impressed in her solo selections. Her accompanying for the vocal and violin numbers was also above reproach.

Miss Fordrea is a violin soloist of real ability, and produces a tone that shows she has given deep study to bowing, one of the great essentials of violin playing. The finger technique displayed in Chopin's nocturne and in fact in each of her selections, was clean-cut and at times brilliant. Double stops, harmonies and cadenzas were played in perfect tune and with rare skill.

The same company will give the concluding recital at Taylor Hall tonight at 8:15.

Leopold Stokowski, the conductor of the Philadelphia Orchestra, has arranged a program of unusual musical charm for the concert on Tuesday evening, November 30, to be given in Memorial Hall, Columbus. The entire program is as follows:

Overture, "Leonore" No. 3
Schubert
Symphony No. 8, in B Minor ("Unfinished")
Intermission.

Strauss Don Juan
Tschalkowsky Variations on a Roccoco theme for Violoncello and Orchestra.
Herman Sanby
Wagner Overture, "Rienzi"

The opening number, the famous "Leonore" overture of Beethoven, is familiar to all concert-goers, and is a majestic composition which will probably remain for all time the model of dramatic preludes.

Schubert's Symphony No. 8, in B minor, popularly known as the "Unfinished," is one of the most pleasing in the orchestral repertoire. The symphony has a quite romantic history. Schubert wrote this work for the Musical Society of Graz which had elected him an honorary member. As the composer during his lifetime was an unappreciated man and had known poverty, wretchedness, hunger and bitter disappointment, it can readily be understood that his recognition by the Musical Society of Graz brought more than unusual joy to him. In gratitude for this recognition he began the "Unfinished" symphony in 1822, but beyond two finished movements of the work and nine measures of a third, Schubert never advanced. Yet in 1865, forty-three years after it was written, and long after Schubert's death, the manuscript was recovered from a friend of the composer, and the symphony was performed for the first time in Vienna.

Herman Sandby, the distinguished Danish cellist, and leader of the cello choir of the Philadelphia orchestra, will play Tschalkowsky's Variations on a Roccoco Theme for Violoncello and Orchestra. Tschalkowsky's Variations on a Roccoco Theme are well adapted to display the brilliant playing of the distinguished Danish cellist.

The tone poem "Don Juan" of Richard Strauss is a brilliant fantasia in the most graphic style of the composer. Under Stowowski's baton the resounding close of this number never fails to arouse the enthusiasm of the audience. The closing number, Wagner's "Rienzi" overture, with its broad melodious themes, forms a fitting climax to this most interesting program. Box office 56 C. L. Commerce. Mail orders filled according to receipt. The 9:40 Ohio Electric car will be held at Columbus depot until 10:30 that night.

STRAIGHT HAIR MADE CURLY WHILE YOU SLEEP

By an entirely new and harmless method, the straightest hair can now be made beautifully curly "while you sleep." Not that the sleeping has anything to do with it, except to prevent loss of any of your precious time while the process is at work. You simply apply a little liquid almerine to the hair, using a clean tooth brush for the purpose. This it seems has the property of causing the hair to dry with a delightful wavy effect, as will be quite apparent in the morning.

The effect lasts considerably longer than when a hot iron is used, and the curlsiness appears far more natural. If you'll get a few ounces of the liquid almerine from your druggist you will have enough to keep the hair in curl for many weeks. This, by the way, is excellent also as a dressing for the hair, keeping it bright and lustrous. It is neither sticky nor greasy.

LIBERTY BELL IN PITTSBURG THIS EVENING

WILL BE WELCOMED BY LINEAL
DESCENDANT OF MAN WHO
CRACKED IT

Pennsylvania National Guard Will
Fire Salute, and Notables Will
be Present.

(ASSOCIATED PRESS TELEGRAM)
Pittsburgh, Nov. 23.—Prominent among the thousands who are expected to welcome the Liberty Bell when it arrives here late today for a five-hour stay will be Little Wilbert and Henrietta Hodge, of Charters township direct descendants through their mother, Mrs. Thomas Hodge of William Henry, who 139 years ago rang the bell so hard that it cracked. Escorting the little ones will be a large delegation of Charters township school children under their teachers.

Battery B, Pennsylvania National Guard will welcome the Bell with a salute of 49 guns, one for every state in the union, and the train will pass along the Pennsylvania railroad through the entire length of the city at five miles an hour. Arriving at East Liberty it will be switched to a specially constructed track where a patriotic program will be carried out. All the military organizations and bands, together with thousands of school children are scheduled to take part in the welcome.

RESINOL BEGINS TO HEAL SICK SKINS AT ONCE

You don't have to WONDER if Resinol Ointment is doing you good. You KNOW it is, because the first application stops the itching and your tortured skin feels cool and comfortable at last. Why don't YOU try this easy Resinol way to heal eczema or similar skin eruptions? Resinol clears away pimples, too, and is a valuable household remedy for cuts, sores, burns, chafings, etc. It has been prescribed by doctors for 20 years and contains nothing to injure the tenderest skin. Sold by all druggists.

HOW TO KEEP BABY'S SKIN WELL

The regular use of Resinol Soap is usually enough to prevent those distressing rashes and chafings to which most babies are subject. This is so, first, because Resinol Soap is absolutely pure and free from harsh alkali, and second, because it contains the Resinol medication, on which so many physicians rely for skin troubles.

umphant association with the motion picture art. The subject combines in a decidedly novel manner the cultured atmosphere of aristocratic society circles with the rugged environment of the trackless wastes of Northwestern Canada. Between these far extremes, the drama swings with unintermitted fascination. Whether in the limitless wilds or the warm, luxurious drawing room, Marguerite Clark is equally effective and appealing, and as the central character of this unique dramatic romance, she attains a greater success than any of her previous screen triumphs.

BROTHERS MEET FOR FIRST TIME IN FIFTY YEARS

(Special to The Advocate)

Beech Woods, Nov. 23.—John Whitmer, residing just south east of here and Adam Whitmer, of Humboldt, Ill., brothers, met in Columbus last week for the first time in fifty years. John Whitmer is 72 years old and his brother Adam is 82 years old. In 1867 the brothers left their homes here and John went to the front to fight with General Grant and Adam to the west. They lost track of each other and until several days ago, did not know of the other's whereabouts. Both are married, and both have retired from active work. John lives in the old homestead a short distance from Rush creek, while Adam is the owner of a farm near Humboldt, Ill.

While in Columbus they were the guests of Mrs. A. W. Arnold, the daughter of Mr. John Whitmer.

"I SLEEP LIKE A BABY AND FEEL LIKE A KID"

80 SAYS LEONARD MILLER, REFERRING TO EFFECTS OF TANLAC IN HIS CASE.

"It Helped Me and I Want Those Similarly Affected to Try It."

Leonard Miller, a well-known mechanic, who works in the round house of the Wheeling & Lake Erie railroad and resides at 803 Monroe street, Zanesville, is one of the many people in Zanesville who has been greatly benefitted by Tanlac and does not hesitate to say so. For years Mr. Miller has been a sufferer from stomach trouble and nothing he has ever tried seemed to help him until he tried Tanlac. He says: "I have had stomach trouble for seven years and have tried all kinds of prescriptions and other so-called treatment preparations, but Tanlac was the first to do me any good—it sure has, and I want those similarly troubled to know it and be thereby benefitted." Continuing, Mr. Miller further said:

"I've not taken quite a bottle yet, but I sleep like a baby and feel like a kid. I'm grateful to Tanlac for the great change in my condition." Mr. Miller's case is one in thousands that has been helped just as he has been, and what it will accomplish for one it will for others similarly affected. Tanlac now is on sale at Hall's Drug store where the Tanlac man is ready to receive you and explain the virtues of Tanlac.

PEELING THE SKIN IS BETTER THAN BLEACHING

Ever since the discovery that mercurized wax would absorb and remove a discolored complexion, its use by ladies as a substitute for bleaching creams has grown rapidly. A perfect complexion can be maintained indefinitely if this remarkable substance is used. Its beneficial cleansing, clearing and preservative action is quickly apparent, and ladies who have been paying high prices for "special bleaches" from beauty specialists, soon recognize that mercurized wax outshines them all. It has become so popular that it can be obtained at all drug stores, who have it in original one-ounce packages. The favorite way of using is to apply it like cold cream before retiring, washing it off in the morning. The salolite lotion for wrinkles and the facial contour has also become extremely popular. On once powdered salolite is dissolved in one-half pint wash water. Bathing the face in this gives a splendid and lasting softening and improving contour.

CENTRAL CHURCH REVIVAL MEETING VERY SUCCESSFUL

The revival meeting now on at the Central Church of Christ gives promise of being a great success. A large audience was in attendance at the Monday night's service, and was very appreciative of the work done by the Rev. L. Brown, Evangelist, company. The opening song service conducted by William Leigh, song evangelist, assisted by the cornetist, E. Leighton Brown, was inspiring. The solo by Mr. Leigh was fine. A large chorus has been organized. A children's choir was organized yesterday afternoon, and they sang last night. The present aim for the children's chorus is one hundred. So it is desired that all children between the ages of 7 and 15 years will be welcomed. There were 40 at the first rehearsal.

Evangelist Brown spoke on the subject "What It Means to be a Christian," and the sermon was very forceful. Many pertinent points were driven home to the hearts of the hearers. The deep interest manifested by the members and the friends of the church is very much appreciated by the evangelist and Minister Ward.

Tonight at 7:30 following a great song service, the evangelist will preach on "Four Sick Men." This is a most interesting subject, and will be delivered in the characteristic manner that marks the evangelist's work.

This afternoon from 1 to 4 o'clock a prayer service is being conducted. There were six leaders appointed for the various periods.

Committees are now at work on plans for the campaign. With suitable weather there is no doubt but what there will be a record attendance at all services. The attendance last night gave evidence that there is already a great interest.

The evangelist has announced a fine lot of sermons ahead. He promises to strike straight from the shoulder, and saint and sinner will come in for their share in every sermon.

REAR ADMIRAL NOT TO UNDERGO ANOTHER TRIAL

(Associated Press Telegram) Washington, Nov. 22.—Rear Admiral William N. GOLD SHIPMENTS, ALMOST \$16,000,000, ARRIVED TODAY

(Associated Press Telegram) New York, Nov. 22.—Two shipments of gold valued at \$15,000,000, which arrived here on board the steamer Lapland and the steamer St. Paul were landed today. The Lapland brought \$1,000,000 while the other ship carried \$14,000,000 in gold specie and \$1,000,000 in bullion. Most of the gold was consigned to New York banking houses to pay for war munitions ordered by the British government.

THE WAY TO GOOD HEALTH

(By J. D. Montgomery.)

Studies in health getting and health preservation would be incomplete without a few remarks about the evils of narcotic poisoning. The most commonly used of all the many narcotic drugs is tobacco. Its active principle, nicotine, is capable of producing instant death in comparative small doses. A single drop placed on the tongue of a cat causes death almost instantly. However, the great and insidious evil of tobacco, using is that the body gradually establishes a toleration for the drug and its evil is not noticed till it gets beyond repair.

Dr. R. L. White in the Southern Medical Journal, makes these remarks about the deleterious effects of the use of tobacco:

"To sum up the opinion of the different authorities, we come to the conclusion that tobacco is the cause of a great many headaches, diagnosed as migraine. It is the cause of a great many cases of brachial and scapular neuralgia, diagnosed as rheumatism. It is the cause of a great deal so called indigestion. It causes an inflammation of the eustachian tubes, and impairs the sense of hearing. It causes stomatitis, laryngitis, pharyngitis, bronchitis, the secondary effects of cancer in the mouth, and a cough which predisposes the individual to tuberculosis. It causes insomnia, which leads to the use of stronger narcotics. The tobacco user, if not a neurotic to begin with acquires neuroticism and increases it the more, the longer he uses the drug. The habit of using tobacco is a condition of neuroticism bad feeling, which is relieved by taking more of the drug. Tobacco is causing persons to be born increasing numbers with drug neuroticism. They are born tired, easily fatigued and discomforted. Having inherited this feeling of discomfort they crave something to relieve it having inherited the tobacco diathesis, and the odor of it being almost omnipresent, they naturally begin the use of it."

Tobacco is not the only narcotic drug having a deleterious effect on the health of the user. Alcohol is probably a greater evil than its colleague, tobacco; but it is not in the province of these studies to examine into the physiological effects of this poison.

Others of the narcotic family have

The Y. W. C. A.—An Investment. Dividends payable daily in increased happiness, usefulness, goodness of the girl of small opportunity. How much would you invest if she were YOUR sister?

wrought havoc with the health and morals of multitudes of people. Morphine has slain its thousands and cocaine has exacted its quota of victims along with those mentioned above. Even the mild concoction called tea is not entirely harmless in its effect on the health of the user. Coffee, the morning beverage of the nation, lays subtle but certain siege to the citadel of health. These all exact their toll in enfeebled vitality, broken health, and premature death.

The question arises, "Do we have a right to indulge in things to eat and drink that will destroy the body? Has our Creator given over the making or breaking of the body into our care? The Lord's desire for our health is expressed in these words: 'Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospers.' 3-John-1:2. Concerning whether one has the moral right to injure his own body we read: 'Know ye not that your body is the temple of God? If any man defile the temple of God, him shall God destroy.' Certainly God will not hold him guiltless who acquires practices and habits that deteriorate and deplete the body forces, thus destroying ones usefulness and throwing himself helpless upon the care of others. We have a duty to make the very best out of opportunities in this life which we cannot do if

our health is lost. We have a duty to prepare in this life for our home in the next, which is a difficult thing to do when under the heavy hand of disease. We have a duty to call others to a preparation for the happy land, which we can hardly do when not possessed of a full quota of robust health.

A sick man makes a poor father. A sick man makes a poor business man. A sick man makes a poor Christian. A sick man makes a poor minister. A sick man makes a poor missionary. He makes an unsafe physician; a dangerous engineer; a poor farmer; he is a failure as a mechanic, a clerk, a lawyer, a soldier; in fact he fails at every thing but failure if he is sick.

Moral: Fools because of their transgression, and because of the iniquity are afflicted. "Then they cried unto the Lord in their trouble and He saveth them out of their distresses." Ps. 107:17-19. (The end.)

Your cold will break and all
grippe misery end after taking a
dose of "Pape's Cold Compound"
every two hours until three doses
are taken.

It promptly relieves all clogged-
up nostrils and air passages in the
head, stops nasty discharge or nose
running, relieves sick headache, dull-
ness, feverishness, sore throat sneez-
ing, soreness and stiffness.

Don't stay stuffed-up! Quit blow-
ing and snuffling! Ease your throbb-
ing head—nothing else in the
world gives such prompt relief as
"Pape's Cold Compound," which
costs only 25 cents at any drug
store. It acts without assistance,
tastes nice, and causes no inconve-
nience. Accept no substitute.

**ONLY 3,000 SERBS
DEFEND MONASTIR**

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 23.—The Havas Agency
has received from Saloniki a dispatch
dated last Thursday announcing the
Bulgarian occupation of Prilep and
stating that the invaders were march-
ing on Monastir which was defended
by only 3,000 Serbs who could delay
but not prevent the capture of the
town. The dispatch stated that the
small Serbian army must retreat in
the direction of Ochrida into Al-
bania. The latest news received at
Saloniki from the Katchanik front,
which was dated the 15th, the dis-
patch adds said the Serbian position
was good and that the Bulgarians
had failed to pass the defile.

WILL REMOVE A TABLE KNIFE IN WOMAN'S STOMACH

(ASSOCIATED PRESS TELEGRAM)
Chicago, Nov. 23.—Mrs. Elizabeth
Hochsberger will undergo an opera-
tion today for the removal of a ten-
inch table knife from her stomach.
Eight months ago Mrs. Hochsberger
had typhoid fever. She recovered,
but her stomach did not feel right.
Finally she recalled in a vague way
that during her delirium of the fever
she had swallowed a knife.

One physician after another was
called upon to prescribe for the stom-
ach trouble and to each she told of
the knife, but each had something to
say of the imaginings of nervous
women. They told her to forget the
knife.

Yesterday all were invited to view
an X-ray photograph. It showed a
ten-inch knife lying in a diagonal
position in the lower part of the
stomach.

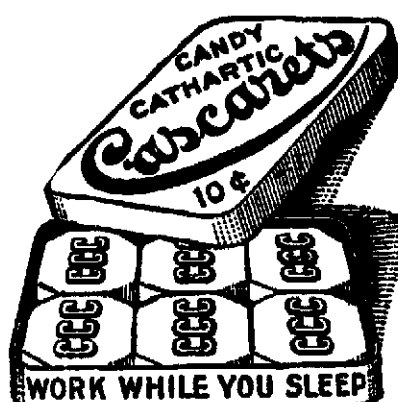

Behind the cloud the starlight lurks,
Through showers the sunbeams
fall;
For God, who loveth all his works,
Has left His hope with all.

MIDDLE

GROUND IS SAFEST FOR GREECE,
IS GENERAL OPINION IN
BERLIN

No Desire Said to Exist in Germany
to Convert Greek Territory
Into a Battlefield.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Nov. 23.—Via London—
Authoritative expressions of opinions
upon the Greek situation are diffi-
cult to obtain here, for competent
officials generally refrain from com-
ment on the ground that their dis-
patches all are greatly delayed. The
general belief seems to be however,
that Greece, standing as she does be-
tween two great dangers will persist
in the middle course of safety and
refrain as far as possible from tak-
ing a definite stand, either for the
entente or the central powers.

An Athens dispatch to the Frank-
furter Zeitung, filed Saturday, de-
claring Greece had announced her
intention of disarming and intern-
ing Serbians crossing the frontier is thus
far unconfirmed and apparently in-
correct.

It is believed on the contrary in
certain well-informed circles that
such band of Serbians if they do
not voluntarily abandon the fight,
may be shown the quickest and
shortest way through Greek territory
to Albania where they can continue
the struggle at their own risk with-
out international complications.

No desire exists here to convert
Greek territory into a field of opera-
tions by following up any advan-
tage over the Serbs or the allies if it
can possibly be avoided. The same
feeling prevails at Vienna so far as
can be learned.

The exact status of Greco-Bulgar-
ian relations cannot be learned but
persistent reports continue that the
two states understand each other
informally regarding the absence of
aggressive plans against Greece or
any intention to annex that part of
Macedonia where the presence of
the Bulgarian flag would be consid-
ered a menace to Greece.

It is not expected here that Ruma-
nia will be any more likely than
Greece to abandon neutrality to join
either group of belligerents and sen-
sational reports from Bucharest to
the effect that Rumania is on the
brink of war generally are discred-
ited.

STORAGE BATTERIES ARE LIKE TIRES

Interesting Comparison Made by
Local Battery Expert.

"A storage battery cannot run on
one-half a charge," says Mr. H. F.
Brennan, local representative of the
Willard Storage Battery company,
"or with insufficient supply of dis-
tilled water to keep the electrolyte
up to the proper level, without seri-
ous injury. This acts just like the
abuse of a tire by running on
sixty pounds of air pressure when it
should have 80 pounds. The owner
does not realize that anything is
wrong until after the damage is done
and his tire is rim-cut and ruined.

Batteries, like tires, begin to wear
out as soon as they are made, whether
used or not, because the battery is
a chemical apparatus and chemical
action is going on to some extent at
all times in the same way that rubber
becomes brittle and loses its life.

In both cases proper attention
greatly prolongs the service to the
car owner and means money in his
pocket.

MRS. BADER'S SISTER
HIGHWAYMAN'S VICTIM
Miss Florence Staib of 584 City
Park avenue Columbus, and sister
of Mrs. Joseph Bader of North
Sixth street this city, was one of
three women who were attacked by
thugs and highwaymen in Columbus
Friday night. Miss Staib observed
a man following her near Third and
Engler street, and remembering a
number of purses had previously
been snatched from women, she
slipped her purse in her coat sleeve.
The man knocked her down, and her
head and face was cut and bruised
but he did not find the purse. Two
women who were passing screamed
and the man fled. The highwayman
used a pair of knuckles on Miss
Staib.

Mrs. Bader was not informed of
this incident until this morning and
will go to Columbus Tuesday, to
visit her sister, who has recovered
somewhat today from the shock.

NEWARK MAN HAS ANCONA TICKET FOR OCEAN TRIP

Guido Angeletti of West Locust
street, has in his possession a steer-
age ticket for passage March 3, 1916,
from New York to Naples, Italy, on
the liner Ancona, which was sunk in
the Mediterranean two weeks ago by
a submarine with a loss of more than
100 lives. The ticket calls for steer-
age passage for Guido, his wife and
three children, the youngest being an
infant in arms at the time the trip
was made.

At that time Angeletti was a res-
ident of Connelville, Pa., and had
been in this country for more than
15 years. He is a native of northern
Italy and this ticket is a souvenir of
his second visit to the old country
after setting out to make his fortune
in America.

Angeletti is a porter employed at
the Old Homestead in West Main
street and lives with his family in
West Locust street near Twelfth. He
received his naturalization papers
more than 13 years ago and consid-
ers himself a real American citizen.

The ticket represented an expendi-
ture of \$162.50, being the price of
two second class passages for him-
self and wife and two quarter fare
tickets for the two children.

Because of the sinking of the An-
cona and the tragic circumstances ac-
companying the disaster, Angeletti
prizes his ticket very highly and is
preserving it as a memento of his
peaceful voyage.

FULL OF RHEUMATISM? Your Case is Not Hopeless. When You Know Where to Seek Relief.

T. J. Evans or any druggist in this
city will promise to give your money
back if you are not cured of rheu-
matism after using two bottles of
genuine Rheuma. To those who

with Rheuma this offer is not neces-
sary, but there are many who have
failed to get results with other me-
dicines and this offer is made to con-
vince the sceptical.

Hear what T. M. Baird, of Delton,
Mich., has to say: "I was taken with
rheumatism in my hips and limbs.
It was all I could do to walk or
work. Last spring I tried a bottle
of Rheuma, and three bottles did the
work. I am not the only one here
who has been benefited. Rheuma
rids the system of uric acid, the poi-
sonous sediment which is the chief
cause of rheumatism.

PRECAUTION

IS DOUBLED BY NEW YORK
HEALTH DEPARTMENT FOR
THANKSGIVING.

Inspectors Condemn Some Mince-
meat, Figs, Dates and Other
Oriental Imports.

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 23.—The city
health department is taking unusual
precautions this year to protect New
York's Thanksgiving dinner. Extra
inspectors have been stationed at the
markets to examine everything in-
tended for the Thanksgiving menu.
The inspectors report that the cold
storage turkeys are in better condi-
tion than usual, but some figs, dates
and other oriental imports are being
condemned because of decay, result-
ing from delayed sailings on account
of the war.

One of the inspectors ordered the
destruction of a five-hundred pound
vat of mincemeat in a baker's supply
house.

Dr. Lucius Brown, head of the
bureau of food and drugs, has issued
a warning advising diners to remem-
ber that alcohol is bad for the liver
and does not materially aid diges-
tion. He adds:

"Don't eat too much Thanksgiving
dinner. When it comes to the meat
go light and eat plenty of vegetables.
Let grape juice and soft cider be
your drinks."

Mr. Coffee Bean

Seems to be having a hard
time of it these days.

He has been found out. Some coffee concerns have tried to rid
him of caffeine, a powerful, habit-forming drug, but without full
success and in so doing have partially destroyed his only redeem-
ing feature, pleasant taste.

Coffee is becoming more and more unpopular with thinking peo-
ple everywhere. They are finding out that its drug, caffeine, is a
frequent cause of headache, nervousness, biliousness, and various
other ills.

The point is—can you afford to risk health and happiness for a
few cups of coffee? The wise thing is to quit coffee and use

Made only of wheat and a bit of molasses, Postum has a rich
flavour much like mild Java coffee, yet contains no harmful ele-
ment.

Postum comes in two forms: The original Postum Cereal re-
quires boiling; Instant Postum is soluble—a level teaspoonful in a
cup of hot water makes a delicious drink instantly. They are
equally delicious and cost about the same per cup.

Ten days' trial of Postum has shown many the sure way out of
coffee troubles.

Reliable Laxative Relieved This Baby

Child was Badly Constipated Until
Mother Tried Simple
Remedy.

In spite of every care and attention to diet, children are very apt to become constipated, a condition responsible for many ills in after life unless promptly relieved.

Mrs. C. W. Wilson, of Shelbyville, Tenn., had trouble with her baby boy, Woodrow, until she heard of Dr. Caldwell's Syrup Pepsin. She writes, "I can safely say Dr. Caldwell's Syrup Pepsin is the best remedy of its kind on earth. It acts so gently and yet so surely. Little Woodrow was very badly constipated and we could find nothing that gave relief until we tried your Syrup Pepsin, which gave immediate relief."

Dr. Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs, mild in action, positive in effect and pleasant to the taste. It has been prescribed by Dr. Caldwell for more than a quarter of a century and can now be had for fifty cents a bottle.

WOODROW WILSON.

In any well-stocked drug store, a trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. D. Caldwell, 154 Washington St., Monticello, Illinois.

FIRST Y. W. C. A. GYMNASIUM IN BOSTON, MASS.

By MISS BERGQUIST
Physical Director Y. W. C. A.

The first gymnasium work done in a Young Women's Christian Association was undertaken in Boston, Mass. In 1878 they had already under taken this work, the scope of which may be judged from the following extract of the general secretary's report in March of that year:

"We have at present a class in gymnastics under the direction of one of our boarders, and in successful operation, but unfortunately for our large family, we have space for only a class of twenty, and that to the inconvenience of the cook in the kitchen or the entire family in the library, to say nothing of the wear of carpet, etc. We beg, therefore, leave to suggest the consideration of this need in your plans for enlargement."

From this small beginning the development of one's courage, personality and self-respect, are established.

MISS BERGQUIST

partment of hygiene and physical education of the Young Women's Christian Association has grown to its present size, with an enrollment of 51,954 girls and women, in 185 different associations, employing 200 directors.

This department stands out as one of the most important of association work, the department through which more girls are reached than any other. The work is very specialized, and is a type to which girls are naturally attracted. Every up-to-date plan for social welfare includes physical activities under trained leadership, and the Young Women's Christian Association, with its organized activities, represents a high type of physical education and recreation.

The aim of the department is to present high ideals for a perfect physical development, high standards of physical and moral health for young women, upbuild health standards, and finally to translate all the work of the department into a consideration of religious life. The value of direct physical exercise to the individual is manifold. First of all, it makes for a healthy body, and healthy body helps make a healthy mind. Directed exercise brings about moral results—self-control through marching, definite gymnastics, apparatus, work and games; courage through apparatus; and generosity through games. It gives social training, demanding leadership, co-operation and skill; in all, exercise gives a sound physical basis upon which to build character. Directed exercise makes the body a capable servant of its owner, and promotes self-respect. Through special work, poise and good carriage, which help so much in giving a true indication of one's

To Remove Unsightly Hairs And Other Aids to Beauty

Except the electric needle, there is absolutely only one sure and painless way to get rid of unsightly hairs and that is to dissolve them. The hair is made up of a protein called keratin, and it is this keratin that the dissolving agent attacks and breaks down. The hair then falls out and a new hair grows in its place. The dissolving agent is a simple, safe, and effective remedy for all kinds of unsightly hairs, including those on the face, neck, arms, and legs. It is a true beauty aid that will make you feel more confident and attractive.

Blackheads are another of the unsightly blemishes that many women are troubled with. They are caused by a clogging of the pores of the skin with dirt and sebum. The dissolving agent will break down the clogging and clear the pores, thus removing the blackheads. It is a simple and effective remedy for all kinds of skin blemishes, including blackheads, pimples, and acne.

But gymnasium work does not consist merely of marching and performing definite exercises by command—it contains much of the play spirit, which arouses the enthusiasm, and gives an opportunity for self-expression. Dr. Luther H. Gulick says, "The glorious thing about life is that the great work is play." It has also been said: "Play is the motive power for life" and "Play prepares for life." Unfortunately most of us have forgotten how to play. Many girls when they first enter the gymnasium are timid and self-conscious, or perhaps they lack self-control, perhaps they will not play unless they can be "it," or they may not know how to play with others, and consequently how to work with others—they cannot do team work. To counteract these tendencies, to rub off "corners" and to train the higher mental powers, play is invaluable. Little children greatly enjoy the games of imitation, which broaden the experience of the child as she performs the motions of various implements, constructs articles involving skill, and in the folk dances and games touches the life of other lands and races. To the girl of high school age, gymnasium work appeals strongly. In her group spirit is predominant, and team games and athletics under high supervision give this spirit an opportunity for expression.

The industrial girl, one of our richest assets, has often entered a shop or factory before entering high school and has become a part of the great industrial machinery while still in her teens. Most of the occupations in which she is engaged require small definite movements, involving only a few relatively unimportant muscles, and at the close of the day's work this girl finds herself too tired to rest. She needs recreation, a diversion from the monotony of her day's work, and in the gymnasium she can find the right kind of fun with the right kind of companions, and in its democratic atmosphere she is given a chance to express herself in the play spirit which God has put into the heart of every human soul and which he means should have expression.

MISS CHILDS IS EFFICIENT SEC'Y OF THE Y. W. C. A.

Miss Katherine Childs, the genial, much-loved general secretary of the Y. W. C. A., has been the guardian of its varied interests for more than a year, during which time she has advanced and extended the activities of the Association and gathered about her an admiring circle of friends and co-workers. Generous of heart, sympathetic by nature, broad in her views, able to think in terms of the Association as well as in that of the individual girl, she is fast leaving her stamp upon her work and her impress upon the community.

Miss Childs brings to the local Association a rich and varied experience in Y. W. C. A. work. Her first service was in the Minneapolis Association, as director of the lunch room. Here from 750 to 850 girls and women were served daily. The profits of the lunch room increased under her management. In June of the year she was there, an increase

MISS CHILDS

of \$400 was reached over the same month of the preceding year. The accounts were audited to find a possible error, but the fact remained, and was doubtless largely due to the training which Miss Childs received at Pratt Institute, of which she is a graduate, and which in its domestic science course lays great stress upon the ethics of efficient ordering, buying and conserving of food supplies.

In the Cleveland Association her work was similar. Here at the close of the year, to test her own efficiency—she submitted her daily menus for the year for examination to an expert dietitian, who pronounced them to be well-balanced—in nutrition for the body—as well-balanced as could be expected unless the food materials were actually weighed, which was high praise, coming from a high source.

In both Minneapolis and Cleveland Associations she was also assistant teacher of domestic science, and taught classes of cooking to maids and to nurses who came to the Association for her instruction from the training schools of the various hospitals. In North Dakota Agricultural College she was director of domestic science and assisted also in organizing a students' association in that college.

But the highest compliment came to Miss Childs when she was called to Baltimore to be "head dietitian" to Johns Hopkins hospital. Here she taught dietetics to the nurses in the training school and in her diet school were planned and cooked all meals that were served to the patients in the private wards.

Having reached the ultimate in her specialty—cooking—she next applied herself to organization work, became a member of the field staff at Cincinnati and of the national secretarial staff. She organized the Green Co. Y. W. C. A. and carried it up to a well-established, firm basis. With headquarters in Xenia and organized branches in small towns and in the country, she taught cooking, sewing and basketry classes, both in the country districts and in town branches. The high school in which she taught cooking and established the basis for domestic science, has now a paid teacher and a department of domestic science.

A year's rest from work and a less strenuous occupation was by no means necessary for this earnest, indefatigable general secretary. Perhaps that is why she came to Newark when larger fields were open to her, since in this young Association her organizing ability and her domestic science would be of great value, while the natural growth of the Association and the expansion of its activities would not at once tax her recruited strength.

Miss Childs offers a course in domestic science in which students covered two terms last year, which they will complete this year, and which will enable them to her certificate or diploma that will enable the students to teach domestic science. The course runs all the way from bread-making through the usual dietary of the home, to the most elaborate course dinner, luncheons and chafing dish suppers. A beginners' class in this course is now commencing. The Association is very appreciative of its general secretary, who establishes wherever she goes the spirit of friendly co-operation and of earnest Christian endeavor.

A trifling cost

Order a package of Aunt Jemima's Pancake Flour. Notice what a big, generous box it is—20 ounces of goodness! Think how many times you could give your family this treat.

Try it tomorrow. Like thousands of other housekeepers, you will say that there is no other flour to serve, for such a trifling cost, such a popular and delicious dish.

Aunt Jemima's Buckwheat flour comes in white packages. Ask for it.

Do You Walk Like This or This

The first is the way most people walk—in common shoes—with the whole weight resting on less than half the feet. It's a sure way to have tired, aching, burning feet.

The other is the way folks walk that wear the famous Dr. A. Reed Cushion Shoes—with the weight evenly distributed over the whole foot. And it's the only way to walk easily and comfortably.

If you have never worn Dr. A. Reed Cushion Shoes—drop in tomorrow and look at them. Every one of our customers that has tried them is delighted—says it's like walking on air—and we'll guarantee that you'll say the same thing.

There's every size and style to choose from—and comfort guaranteed—all at reasonable prices. We'll look for you tomorrow.

"G-E-T-S-I-T" Ends Corn Pains. It's Sure and Safe, too!

No wonder you get mad when somebody tries to tell you that all your experience isn't so all. Nothing new for corns has been found since "G-E-T-S-I-T" was born. All you need do is apply two drops on the corn. There's nothing to stick. Pain leaves you. It's the cure of the century, the new way, the sure, painless, simple way. You won't wince when you put on your shoes in the morning. "G-E-T-S-I-T" is sure "sets" any corn, callus, wart or bunion. You won't want what you want when you want it—therefore see that you get your "G-E-T-S-I-T". Avoid substitutes. "G-E-T-S-I-T" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Newark and recommended as the world's best corn remedy by T. J. Evans.

Travelers will enter Canada by way of Great Bear Lake.
The King's Daughters, who are earnestly at work on preparations for their annual bazaar, held an extra meeting last evening at the home of Mrs. John Thomas. No attempt at a program nor the serving of refreshments interfered with the real object of the meeting, which was work. Consequently much was accomplished. Announcement was made that on next Monday evening the meeting will be held at the home of Mrs. Frank Robinson in Granger street—the last before the bazaar, which is to open on December 3.
Mr. and Mrs. J. S. Jones of Bryn Du farm have gone to Chicago, where they will spend Thanksgiving.
A beautifully decorated table and a most appetizing menu were features of the dinner given by Mrs. B. J. Jones last evening at her home in West Broadway in honor of her son and daughter. Mr. and Mrs. Grove E. Jones of Woodstock, Vt., who have been her houseguests for a week. Covers were laid for eight. Mr. and Mrs. Jones will go from Granville to Florida where they expect to spend the winter.
Mrs. Newton Brumback of Colorado Springs and Mrs. Charles Herick of Chicago, who are visiting their sister Mrs. Susan Talbot Bawden, were guests yesterday at the home of Mr. and Mrs. J. R. Davies in Hudson avenue, Newark.
Mrs. Helen Hunt, who has spent the past month visiting her son, Rev. Horace Hunt, pastor of the Baptist church in Geneva, O., has returned to her home in Park Drive.
Leland Arnold, Denison Conservatory, "12, A. B. (Harvard)" is a member of the newly organized Watteau Trio of Boston. This company is composed of a violinist, a soprano and Mr. Arnold, pianist. Recitals of intimate chamber music of the early schools are given in Louis XIV costume and in the spirit of the ancient time. A two manual Harpsichord is used in these interesting programs. It is to be hoped that an appearance of the Watteau Trio can be arranged for Granville at some future date.
Miss Dorothy Swartz, who has been noted in almost daily lunch-coons, teas, thimble parties, etc., since the issuing of her wedding invitation for Friday evening, November 26, was honor guest Monday afternoon from 3 to 7 o'clock at a thimble party given by Mrs. Fred McCullum at her home in Broadway. About twenty girls and young matrons of Granville were present and a four course dinner was served at 6 o'clock.

BISHOP MOORE IS PARALYZED

Cincinnati, Nov. 23.—Bishop David H. Moore of the Methodist Episcopal church was taken to a hospital here today, suffering from what appeared to be a paralytic stroke. Bishop Moore was returning to his home here from a visit to his brother in Chicago after having recently visited the Pacific coast. He was on the train when he was stricken. The attending physicians admitted that his condition is serious.

STEAMER AND CARGO DESTROYED BY FIRE

Cadiz, Spain, Nov. 22.—Via Paris, Nov. 23.—The steamer Libra, and the greater part of its cargo were destroyed by fire which followed an explosion while inflammable goods were being discharged from the hold here today. Several seamen were injured. The Libra arrived Saturday from New York.

Farmers on Perryton Institute December 3 and 4.

J. S. BRIGHAM, Bowling Green.

TELLS HOW TO MANAGE BUMPER TRUCK CROPS

Practical Farmer Spending Fifteenth Winter Lecturing.

Getting big truck crops and managing them after we get them are the two problems which J. S. Brigham, truckman and farmer of Bowling Green, will attack in his speeches during the two days of the coming Farmers' Institute. Mr. Brigham is spending his fifteenth winter in farmers' institute work. "The experience on which I base what I have to say has been gotten right in the work, doing things," says he.

Among the phases of truck farming which he will discuss are, "The Farm Garden," "Growing Potatoes in Ohio," "Orchard Development," "Gardening For Market" and "Problems in Marketing Produce." Talks of a different nature will be "The Lure of the Land" and "Life On a Texas Cattle Ranch."

C. R. WAGNER, Arlington, O.

HAS SPENT 23 YEARS LECTURING TO FARMERS

"How to Rent a Farm" is Subject On Which He Speaks.

"Renting Farm Lands" is one of the timely subjects on which C. R. Wagner, veteran farmers' institute lecturer of Arlington, O., will lecture during the two day session of the coming Farmers' Institute. Seventeen years in Ohio and six in West Virginia and Maryland are Mr. Wagner's record in farm institute work.

During a lifetime spent on his father's and later on his own farms, Mr. Wagner's specialty has been live stock. "Breeding and showing pure bred stock has brought success. Feeding for markets has been very successful in money returns, besides it has twice doubled the productiveness of our farms," says he.

His subjects this year include "Care as a Factor in Stock Farming," "Live Stock Versus Grain Farming," and "Factors in Profitable Corn Crop." He also speaks on "A More Thorough Acquaintance" and "Touring by Automobile"

We have just installed the machinery for charging electric cars and rebuilding and charging electric batteries for starter and have a man who has had ten years' experience in building electric cars and batteries.
